Notes

 Units can complete the hiking/ canoeing requirement and the Museum visit on different days and in any order. Both must be completed within eight months of each other. This means that Units can:

- Visit the Museum during summer camp and complete the hike/canoe requirement in the Fall.
- Complete the hike/canoe requirement during the Spring and visit the Museum during summer camp.
- Earning a device also earns the trail medal and the option of purchasing the lesser devices. For example, if you earn the 50miler pin, you can also purchase the 30-miler and 14-miler pins.

- You must complete the entire hiking/canoeing requirement on one trip. You cannot, for example, complete the requirements for the 14-miler pin on one trip, and then hike an additional 16 miles on a subsequent trip to earn the 30-miler pin. You must complete the hiking requirement for the 30-miler pin on one trip.
- No backtracking. You can't hike 5 miles out and 5 miles back to complete the 10-mile hike requirement.

TMR TRAIL-WORK PIN

Your Scouts can earn a new award pin after a few hours of trailwork at TMR. The Ten Mile River Scout Museum is issuing this free pin as part of the Ten Mile River Historical Trails award program. Individuals that earn the trail medal can wear the pin on its ribbon.

There are two ways to earn the new "trail-work" pin:

- Complete an assigned project with a minimum of six hours of trail-work over a single weekend during TMR's off-season or a week during TMR summer camp. The six hours does not include traveling to or from the trail-work site.
- While completing the 10-mi. hiking requirement for the Ten Mile River Historical Trails award, complete a minimum of three hours of trail-work along the hike route. This could be either an assigned project or general maintenance trail-work.

Typical trail-work projects include: erecting trail markers, removing or cutting downed trees, trimming excessive vegetation & low-hanging branches, removing branches from the trail, filling in or constructing bridges in muddy sections. Picking up litter along the trail is NOT an acceptable project.

TMR TRAIL-WORK PIN

Troops intending to earn this award pin during a weekend campout at TMR should notify the Director of TMR or the GNYC Camping Department well in advance, so that sufficient wood tools, supplies and an assigned project will be provided once they arrive in camp.

Troops intending to earn this pin during TMR summer camp should notify their camp staff while in camp, so that sufficient wood tools and supplies will be provided. A list of needed trail-work projects will be provided upon request.

This pin can be earned whenever TMR is open for camping, weather permitting. After completing the trailwork, the Troop will submit to the Museum an application form and a minimum of six GPS-tagged photos, documenting the trail-work. Pin applications can be submitted directly to the Museum at TMR when it is open or through the mail the rest of the year.
